

KEY FEATURES AND BENEFITS

Robust Design:

Compact and durable for reliable seed delivery.

Advanced Technology:

Equipped with Horizon metering units, hydraulic fan, and pressurised tanks for precision.

Versatile Applications:

Supports companion cropping, fertiliser placement, and slug pellet application.

User-Friendly:

Features Farmscan control, ISOBUS compatibility, and monitoring sensors for ease of use.

Safety and Efficiency:

Road-compliant with front work lights and cameras; full-size lid for big bag filling.
